To speak with the receptionist remain on the line and your call may be answered in the order it was received. [Music- ring, ring ]

G: City of Scottsdale, this is Gesida, how may I help you?

F: Yes, is there a building code supervisor? I have a question. I'm a former real estate agent and I'm in Scottsdale. Is there a supervisor for enforcement of building codes or electrical codes?

G: Is this regarding the building codes?

F: Actually it regards building codes electrical and fire codes.

G: Let me see if one of our building reviewers is available.

[Music]

V: Planning and Review this is Vic.

F: Yes, Vic. My name is Florie Freshman. I have a house in South Scottsdale... I'm concerned, I was in real estate for ten years, the last five years I did real estate safety inspections, move-ins and move-outs of very nice rentals. My fourth and honest Broker, I put my license on inactive this December... Anyway, I wanted to ask you, and I spoke to several people about this, I spoke to the Dept. of Health, I spoke to the Prescott Fire Dept. and I've been communicating with a microwave warfare expert in England, and an electrician and building engineer in British Columbia, so I'm very concerned about the smartmeter situation they're vibrating 900MegaHertz on 60 Hertz wiring. It's compromising, I've notices when I move people, photographs Spanish tile

80 properties with stucco most of them smartmeters tenant when they moves out, they wouldn't get blamed for it, charged for it Broker good of tenant I had to make sure evacuation brand new window chipping in stucco getting worse wiremesh underneath.

It's a constant taze you twice a day and wifi in the schools poor children bleeding legal documents are no fire are no safety electrical codes constant test was done on SAR building codes Pulitzer banner news superhero

Settlement cracks wire-mesh underneath Curtis Bennett Thermography infrared 19 Prescott denied information that's been denied for ten years, ten years there's video on that, too. Thermoguy causes accelerated corrosion of pipes do you know smartmeter?

V: Yes, I do.

F: A lot of people don't. extortion fee I spent hundreds on shielding, 900 million cycles per second wiring 60 cycles per second vibrated off into dust

Taze twice a day wifi 2.4 gigahertz bleeding out of their ears, I have legal documents there are no fire safety electrical constant seismic activity SAR head specific absorption rate

It has to do with building codes shaking a person or a tree, I am entering my cartoon in the Pulitzer super hero....medical illustration plastic head with no antenna fluid in the plastic electric energy healing SAR was done on a plastic head with all wireless devices, smartmeters on your water

V: there are two organizations one would be the national electric code underwriter labs

F: they've been bought my grandparents require labelled by a test

V: I have no choice but to follow what the law states

F: there is no vibration intermittent vibration meter readers came remedial specialist

My taxes pay your salary and I want them to
